From Shakti to Success

From Roots to Heights

Rashtra Shakti Vidyalaya

Gandhi Nidhi ,Hastsal

It gives me immense joy and pride to present “RSV Alumni – Shakti to Success, Roots to Heights”, the first alumni magazine of Rashtra Shakti Vidyalaya. This publication is a celebration of our students’ remarkable journeys – from their formative years within these classrooms to their inspiring accomplishments across the world.

The magazine brings together 100 proud alumni from batches 2004 to 2025, who have made their mark as educators, professors, doctors, journalists, engineers, armed forces officers, entrepreneurs, analysts, researchers, and leaders in various fields. Each of them stands as a living example of the values, discipline, and strength that define Rashtra Shakti Vidyalaya.

Our alumni truly embody the spirit of our motto – समर्थ भात्र शसक्त राष्ट्र, Their achievements remind us that the foundation of success lies in education, perseverance, and the courage to dream.

I sincerely appreciate Mrs. Jyoti Sharma, PGT Chemistry, for her dedicated effort in compiling and designing this alumni record with such care and thoughtfulness. Her contribution has turned this book into a beautiful bridge connecting our glorious past with a promising future.

May this initiative continue to inspire our present students to follow their passions, contribute to society, and carry forward the light of Rashtra Shakti Vidyalaya with pride.

Mansha Dheer, a proud alumna of Rashtra Shakti Vidyalaya (Batch 2020–21), spent seven memorable years at the school, where she excelled in academics and found her creative expression through art and music. Her dedication and all-round excellence earned her The Times of India's Student of the Year Award (2018–19).

A Journey Rooted in Responsibility - From Packaging to Purpose

Currently working as Assistant Manager – Packaging at Swiggy, I lead packaging development and procurement for Snacc by Swiggy, focusing on sustainable and customer-friendly solutions that enhance product experience while reducing environmental impact.

Earlier, at Jubilant FoodWorks Ltd., I developed eco-friendly packaging for Domino's, Dunkin', and Hong's Kitchen, earning the IndiaStar 2024 Packaging Award and two patents for sustainable designs. My journey began at Britannia Industries, where I learned how packaging connects food science, design, and sustainability.

With a B.Tech in Food Technology and M.Sc. in Packaging from the Indian Institute of Packaging, Delhi, I've always aimed to blend science with purpose.

The roots of my sustainability journey go back to Rashtra Shakti Vidyalaya, where I learned the values of discipline, awareness, and responsibility. I remain deeply grateful to my teachers for inspiring me to take small yet meaningful steps toward a cleaner and kinder planet.

ਇਸ਼ਾਪ੍ਰੀਤ ਤੋਂ ਬੀਬੀ ਇਸ਼ਾਪ੍ਰੀਤ ਤੱਕ ਦਾ ਸਫਰ

My school journey was filled with rhythm, melody, and stage lights. Zonal performances gave me confidence and taught me discipline. But as time passed, my voice found its true purpose. For me, music became more than art. It became a way to spread, peace, devotion, and divine love.

I feel blessed to share this gift by teaching Kirtan to children and encouraging them to walk on the path of spirituality. I'll always remain thankful to my school and teachers for being the starting point of this journey.
